CNC GRINDING SPINDLES

COMPANY PROFILE

ABOUT US

**KENTURN is our only brand,
Made in Taiwan and deserves your trust.**

Kenturn has been designing, manufacturing, fabricating and marketing machine tool spindles of all kinds since 1983. The company prides itself on intensively studying spindle design and producing innovative technology. It is always improving design and manufacturing teamwork. Kenturn's innovation and initiative guide its planning.

In the early days of the industry, the company developed the Kenturn precision spindle, establishing a unique level of quality. The company continued to progress by providing added value spindles, including Direct-Drive and Precision Built-in Spindles. The company's products immediately help customers maintain and resolve technological problems, and assist customers to reach their production goals.

MANUFACTURING

Over **35** years history

Exported to over **50** countries

90 % Grinding process made inside factory

Over **2400** set spindle capacity per month

Over **4000** kinds of spindle were made

Headquarter over **50000** m²

CERTIFICATION

OHSAS 18001

ISO 14001

ISO 9001

ISO 50001

CE

EQUIPMENTS

Using state of the art instruments. Precision assembly techniques must pass High-Reliability test. The most advanced machinery finishing equipment featuring the best of western technology and own decades of finishing and manufacturing experience.
